Mosquito Spraying Notice

Monday, March 23, 2026

The City will begin mosquito spraying on all streets within city limits.

Spraying will occur every Monday around dusk until further notice to help reduce mosquito activity throughout the community.

The spraying process uses cold fogging, which disperses into the air and can reach up to 300 feet for effective coverage.

There is no danger to pets from the spraying. However, as a precaution, residents may choose to bring pets and pet food bowls indoors during spraying times.

The cold fog treatment is safe and effective.

Thank you for helping us keep our community comfortable and safe.
